At **DEDON**, we design for life outside — for the moments that stay with us. A sunrise shared in silence. Laughter echoing across a terrace at dusk. The feeling of arriving somewhere that feels entirely your own.

For over 30 years, we've been inspired by the spirit of place — the calm of the coast, the stillness of the mountains, the warmth of desert air. Our furniture is designed to hold that spirit, to create environments that bring people together under open skies — in comfort, beauty, and ease.

We understand the needs of design professionals because we are design professionals. From in-stock solutions and domestic cushion production to long-term partnerships and hands-on service, DEDON is built to support your vision — and your process. Our client relationships are as lasting as our products: defined by trust, responsiveness, and shared creativity.

What we offer goes far beyond aesthetics. Every DEDON piece is made to inspire — to spark connection, elevate everyday rituals, and support the life you want to live. Under open skies, surrounded by good design and good company, we find what matters most.

NESTREST:
The icon of
the outdoors.

DEDON was founded on innovation, beginning with its groundbreaking fiber, luxurious yet weatherproof. What followed was a revolution in outdoor living. DEDON engaged world-renowned designers. Established its own fiber lab and production facilities in Germany, along with zero-waste furniture manufacturing on Cebu Island in the Philippines. Created icons of modern design. Added new materials to the mix. Garnered the most prestigious awards. And extended its reach to more than 100 countries.

35 years ago, DEDON launched an outdoor revolution. Innovative by nature, the company never looked back.

Discover,
explore and
enjoy life
outdoors.

Pioneering
the unknown
adventure.

Delightful to touch,
durable against
the elements.

The *DEDON* *Fiber*

Strong enough to withstand the elements. Supple enough to weave into art. Versatile enough to inspire the world's leading designers for more than 3 decades. That's DEDON Fiber, the standard of quality. The material that sparked a revolution in outdoor living by setting a new benchmark in luxury and durability for outdoor furniture.

DEDON fiber reflects DEDON's commitment to excellence, with products that endure even the harshest environments — whether in deserts or on the decks of yachts and cruise ships. Researched, developed and manufactured at the company's own state-of-the-art production facilities in Northern Germany. Resistant to chlorine, salt water, and sun. Beloved by customers for its luxuriousness of color, texture and touch.

At DEDON, specialists and leading designers work side by side, continuously innovating new profiles and textures to suit the designs of individual collections. Never settling for less than the best.

Unique among outdoor brands, DEDON owns and operates the entire production of its luxurious hand-woven furniture, from fiber to frame to finished product.

DEDON Fiber: unbeatable for its strength, weather-resistance and beauty.

DEDON Fiber endures where others cannot, delivering the unmatched quality and durability that have become synonymous with our brand.

To date, DEDON EcoCycle Fiber finds expression in collections like SEALINE, SEASHELL NUO, SEASHELL GRAND and CALADIO.

A journey towards sustainable excellence

Guided by a mission to foster sustainable alternatives, DEDON is dedicated to exploring and integrating sustainable materials. The groundbreaking DEDON EcoCycle Fiber exemplifies this commitment to sustainability. This innovative material reflects our mission to provide environmentally conscious choices without sacrificing quality or performance.

Derived 90% from plant-based resources, DEDON EcoCycle Fiber is an eco-friendly alternative to conventional, fossil-fuel-based products. The remaining 10% consists of pigments and stabilizers to ensure the quality of the fiber. DEDON EcoCycle Fiber offers the same luxurious look and texture as traditional DEDON Fiber along with the same unrivaled strength and weatherability.

Produced in DEDON's cutting-edge facilities in Germany, DEDON EcoCycle Fiber upholds the same exceptional quality standards and warranty as classic DEDON Fiber.

Cebu Island —
home away
from home.

Cebu Island,

DEDON
manufacturing
site in Mandaue
City, Philippines.

Heartquarters

DEDON produces its handwoven furniture exclusively at its own zero-waste facilities on Cebu Island, Philippines, where master weavers create woven patterns of incomparable artistry and innovation. DEDON first went to Cebu Island, for the talent of the weavers, but it stayed for the smiles, the culture and the way of life.

The company regards Cebu as its second home, providing an excellent work environment and social benefits that promote teamwork and camaraderie.

DEDON's aluminum frames are precision-welded by hand.

Established in 2000, DEDON Philippines is strategically located in the heart of Cebu Island's furniture district. Our 15,500 square meter manufacturing center is a bustling hub of creativity and expertise, where around 260 expert craftsmen work diligently every day.

Inside DEDON's
R&D lab in Cebu.

Taking a break at
DEDON's production
facility in Cebu.

Exceptional
craftsmanship
truly sets
DEDON apart.

An ancient
handcrafting
tradition,
thriving today.

The Art of *Weaving*

The art of weaving, deeply rooted in the history of Asia, is a skill inherited and perfected by our master weavers in the Philippines, who are among the most talented in the world. Their creativity and expertise are showcased in weaving patterns of incomparable intricacy, innovation, and artfulness.

Our artisans employ diverse techniques and fiber types to skillfully create designs ranging from light and open to solid, tightly woven patterns, resulting in each piece of DEDON furniture being a distinctive and handwoven masterpiece.

Manufactured entirely in-house, every woven DEDON creation is the embodiment of modern technology and centuries-old artisanry.

Each piece is
manufactured
at its best.

Passion for Quality

DEDON selects only the finest materials for its luxury outdoor furniture, working exclusively with suppliers who share its passion for quality. From premium teak to industrial-strength ceramic to advanced fabrics from the US and Europe, every material suits the individual needs of its collection. DEDON provides the perfect selection for any setting, ensuring that users can savor the pinnacle of outdoor living.

Thoughtful
material
selection.

Crafted by the hands of highly skilled artisans, dedicated to excellence in the luxury outdoor furniture market.

A Global Perspective *on Design*

From concept to craft, our global network brings together the best of design, innovation, and craftsmanship. With showrooms across the United States, sales and client support teams worldwide, and global warehousing and stocking, we bring design excellence to every corner of the world.

- 1 High Point, NC** – In the cradle of American upholstery, our cushion production and warehouse connects design heritage with modern craftsmanship.
- 2 Lüneburg, Germany** – Home to our state-of-the-art fiber production, where technical precision and German engineering shape the highest standards in fiber development and production.
- 3 Cebu, Philippines** – A hub of artistry and tradition, where expert weavers continue generations of handcraft and innovation.
- 4 Surabaya, Indonesia** – The heart of our sustainably managed teak plantation, ensuring responsible sourcing and enduring beauty.

chalk 30A

EN MATERIAL Ceramic

Made of Monolite Ipergres®: Frost proof, non-absorbing ceramic material with excellent resistance to scratches, abrasion and indirect tensile stress. Due to method of production, the side table does not have an entirely level surface. Ceramic tabletops are handmade. This may cause variations that make each piece truly unique. Clean with a soft cloth and warm water. Do not cover during the winter months and ensure adequate air circulation.

EN MATERIAL PE

Made of rotomolded polyethylene (PE). Clean with a soft cloth and warm water.

EN MATERIAL Planter

The BABYLON Planter is a dual-walled planter the volume of which can vary depending on the size of the plant. Made of rotomoulded polyethylene (PE): 100% approved for outdoor use, easy to maintain, 100% recyclable, light yet robust at the same time. Clean with a soft cloth and warm water.

ES MATERIAL Cerámico

Fabricado con Monolite Ipergres®: un material cerámico resistente a las heladas e hidrófugo con una excelente resistencia a los arañazos y a la abrasión. Debido al método de producción, la mesa auxiliar no tiene superficie totalmente plana. Los tableros de las mesas de cerámica están hechos a mano. Esto puede causar variaciones que hacen que cada pieza realmente única.

ES MATERIAL PE

Fabricado con polietileno (PE) moldeado por rotación. Limpiar con un paño suave y agua tibia.

ES MATERIAL Planter

El BABYLON Planter es una maceta de doble pared cuyo volumen puede variar en función del tamaño de la planta. Fabricado con polietileno (PE) moldeado por rotación 100 % para uso en exterior, fácil de mantener, a la vez que ligero, resistente y 100% reciclable. Para limpiar la superficie, utilice un paño suave, agua tibia y, si es necesario, un detergente suave.

EN MATERIAL Tables

The tables are available with an HPL tabletop, ceramic material, or a teak top. HPL is a material characterized by high impact resistance and extreme resistance to mechanical impact, moisture, and steam. DEDON HPL tabletops are made of resin-impregnated paper layers. Since these paper layers are a natural product, slight color variations may occur due to the production process. The ceramic tabletops are made of porcelain stoneware, a high-performance ceramic produced by sintering mineral powders without resins. They are highly resistant to water, frost, UV exposure, and abrasion, making them ideal for outdoor use. The frame is made of powder-coated aluminum. Clean with a soft, clean cloth and warm water. The teak tabletop is made of high-quality teak wood. Clean the teak with DEDON Fiber, Teak & Upholstery Cleaner. To preserve its original golden-brown color, apply DEDON Teak Color Protector at least every six months.

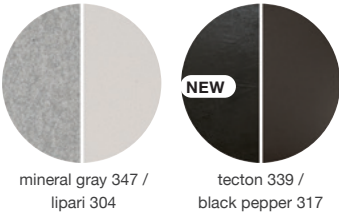

ES MATERIAL Mesas

Las mesas están disponibles con un tablero HPL, un tablero hecho de material cerámicos o un tablero de teca. El HPL es un material caracterizado por su alta resistencia a los impactos y su extrema resistencia a la acción mecánica, la humedad y el vapor. Los tableros HPL de DEDON están compuestos por capas de papel impregnadas con resina. Dado que estas capas de papel son un producto natural, pueden producirse ligeras variaciones de color debido al proceso de fabricación. Los tableros cerámicos están hechos de gres porcelánico, una cerámica de alto rendimiento producida mediante la sinterización de polvos minerales sin resinas. Son altamente resistentes al agua, a las heladas, a la exposición a los rayos UV y a la abrasión, lo que las hace ideales para uso en exteriores. El marco está hecho de aluminio recubierto de polvo. Limpiar con un paño suave y agua tibia. El tablero de teca está hecho de madera de teca de alta calidad. Limpie la teca con Limpiador de Teca DEDON. Para mantener el color marrón dorado de la teca sin intemperie, recomendamos aplicar protector de teca DEDON al menos una vez cada seis meses.

EN MATERIAL Chairs

Made of DEDON Fiber woven over a powder-coated aluminum frame. Clean with a soft cloth and warm water.

EN MATERIAL Tables

Made of DEDON Fiber woven over a powder-coated aluminum frame. Clean with a soft cloth and warm water. The teak tabletop is made of high-quality teak wood. Clean the teak with DEDON Fiber, Teak & Upholstery Cleaner. To preserve its original golden-brown color, apply DEDON Teak Color Protector at least every six months.

*Only the seat cushion is equipped with Dry+ and tie - down functionality.

ES MATERIAL Sillas

Fabricado con fibra DEDON tejida a mano sobre una estructura de aluminio con recubrimiento de pintura en polvo. Limpiar con un paño suave y agua tibia.

ES Material Mesas

Fabricado con fibra DEDON, tejida sobre una estructura de aluminio con recubrimiento en polvo. Para la limpieza, utilice un paño suave y agua tibia. El tablero de teca está hecho de madera de teca de alta calidad. Limpie la teca con Limpiador de Teca DEDON. Para mantener el color marrón dorado de la teca sin intemperie, recomendamos aplicar protector de teca DEDON al menos una vez cada seis meses.

*Solo el cojín de asiento presenta amarres para asegurarlo al marco.

EN MATERIAL

The tables are available with either a glass, HPL or a ceramic tabletop. HPL is a material characterized by high impact resistance and extreme resistance to mechanical impact, moisture, and steam. DEDON HPL tabletops are made of resin-impregnated paper layers. Since these paper layers are a natural product, slight color variations may occur due to the production process. The ceramic tabletops are made of porcelain stoneware, a high-performance ceramic produced by sintering mineral powders without resins. They are highly resistant to water, frost, UV exposure, and abrasion, making them ideal for outdoor use. Single-layer tempered glass provides excellent resistance to temperature fluctuations, bending, impact, and shock. The frame is made of powder-coated aluminum. Clean with a soft, clean cloth and warm water.

ES MATERIAL

Las mesas están disponibles con tablero de cristal, HPL o cerámicos. El HPL es un material caracterizado por su alta resistencia a los impactos y su extrema resistencia a la acción mecánica, la humedad y el vapor. Los tableros HPL de DEDON están compuestos por capas de papel impregnadas con resina. Dado que estas capas de papel son un producto natural, pueden producirse ligeras variaciones de color debido al proceso de fabricación. Los tableros cerámicos están hechos de gres porcelánico, una cerámica de alto rendimiento producida mediante la sinterización de polvos minerales sin resinas. Son altamente resistentes al agua, a las heladas, a la exposición a los rayos UV y a la abrasión, lo que las hace ideales para uso en exteriores. El vidrio templado de una sola capa proporciona una excelente resistencia a las fluctuaciones de temperatura, flexión, impacto y choque. El marco está hecho de aluminio recubierto de polvo. Limpiar con un paño suave y limpio y agua tibia.

EN MATERIAL

Made of DEDON Fiber woven over a powder-coated aluminum frame. Clean with a soft cloth and warm water. The bases are made of premium teak. Clean the teak with DEDON Fiber, Teak & Upholstery Cleaner. To preserve its original golden-brown color, apply DEDON Teak Color Protector at least every six months.

The cushions of the wing, lounge, club, rocking chair, footstool, and daybed are quilted, which keeps the filling in place and supports the longevity of their luxurious embrace. While the covers cannot be removed, the cushions can be hand-washed at 86°F (30°C). The Dry+ cushions of the wing, lounge, club, rocking chair, footstool, and daybed are removable and can be machine-washed at 86°F (30°C).

ES MATERIAL

Fabricado con fibra DEDON tejida a mano sobre una estructura de aluminio con recubrimiento de pintura en polvo. Limpiar con El Limpiador de fibra, madera de teca y telas. Para conservar el color dorado característico de la teca nueva, se recomienda aplicar el Protector de Color para Teca DEDON al menos cada seis meses.

Los cojines de el sillón bajo, sillón orejero, la mecedora, el taburete y el Daybed están acolchonados, lo que asegura que el relleno se mantenga en su lugar y apoya la durabilidad de su lujoso confort. Aunque las fundas no son removibles, los cojines pueden lavarse a mano a 30 °C (86 °F). Los cojines Dry+ de el sillón bajo, sillón orejero, la mecedora, el taburete y el Daybed son removibles y pueden lavarse a máquina a 30 °C (86 °F).

Fabric Overview

EN Cushions for this collection are available in all fabrics Cat. A, B, C & D, excluding BORNEO.

EN MATERIAL Tables
Made of premium teak. Clean the teak with DEDON Fiber, Teak & Upholstery Cleaner. To preserve its original golden-brown color, apply DEDON Teak Color Protector at least every six months.

The tabletops of the coffee and side tables are made of Monolite Ipergres®, a cast ceramic material that is frost-proof, non-absorbing, and highly resistant to indirect tensile stress, impacts, scratches, and abrasion. These ceramic tabletops are handmade, which may cause variations that make each piece unique. Clean with a soft cloth and warm water. Do not cover during the winter months and ensure adequate air circulation.

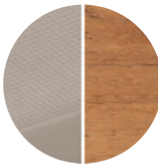

ES MATERIAL Mesas
Fabricado con teca de alta calidad. Limpie la teca con el Limpiador de fibra, madera de teca y telas. Para conservar su color original marrón dorado, aplique el Protector de Color para Teca DEDON al menos cada seis meses.

Los tableros de las mesas de centro y auxiliares están hechos de Monolite Ipergres®, un material cerámico moldeado que es resistente a las heladas, no absorbente y altamente resistente a la tracción indirecta, los impactos, las rayaduras y la abrasión. Estas superficies cerámicas están hechas a mano, lo que puede provocar variaciones que hacen que cada pieza sea única. Limpiar con un paño suave y agua tibia.

EN MATERIAL

Made of DEDON Fiber woven over a powder-coated aluminum frame. The bases are made of a powder-coated, die cast, single piece of aluminum. Clean with a soft cloth and warm water.

The cushions of the wing, lounge, club, and footstool are quilted, which keeps the filling in place and supports the longevity of their luxurious embrace. While the covers cannot be removed, the cushions can be hand-washed at 86°F (30°C). The Dry+ cushions of the arm, wing, lounge, club, and footstool, are removable and can be machine-washed at 86°F (30°C).

ES MATERIAL

Fabricado con fibra DEDON tejida a mano sobre una estructura de aluminio con recubrimiento de pintura en polvo. Las bases son de aluminio con recubrimiento de polvo, fundido a presión en una sola pieza. Limpiar con un paño suave y agua tibia.

Los cojines de el sillón bajo, sillón orejero, la mecedora, el taburete y el Daybed están acolchonados, lo que asegura que el relleno se mantenga en su lugar y apoya la durabilidad de su lujoso confort. Aunque las fundas no son removibles, los cojines pueden lavarse a mano a 30 °C (86 °F). Los cojines Dry+ de el sillón bajo, sillón orejero, la mecedora, el taburete y el Daybed son removibles y pueden lavarse a máquina a 30 °C (86 °F).

COFFEE TABLE, INCL. HPL TABLETOP
Mesa de centro, incl. tablero HPL

Ref. A1X

24.6 kg • 54.23 lbs

**Ref. A12**

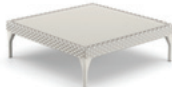

width	depth	height
35½"	35½"	11¾"
90 cm	90 cm	30 cm

EN MATERIAL
The tables are available with either a glass or HPL tabletop. HPL is a material characterized by high impact resistance and extreme resistance to mechanical impact, moisture, and steam. DEDON HPL tabletops are made of resin-impregnated paper layers. Since these paper layers are a natural product, slight color variations may occur due to the production process. Single-layer tempered glass provides excellent resistance to temperature fluctuations, bending, impact, and shock. Clean with a soft, clean cloth and warm water.

COFFEE TABLE, INCL. GLASS TABLETOP
Mesa de centro, incl. tablero de cristal

Ref. A13

31.5 kg • 69.45 lbs

90 cm	90 cm	30 cm

ES MATERIAL
Las mesas están disponibles con tablero de cristal o HPL. El HPL es un material caracterizado por su alta resistencia a los impactos y su extrema resistencia a la acción mecánica, la humedad y el vapor. Los tableros HPL de DEDON están compuestos por capas de papel impregnadas con resina. Dado que estas capas de papel son un producto natural, pueden producirse ligeras variaciones de color debido al proceso de fabricación. El vidrio templado de una sola capa proporciona una excelente resistencia a las fluctuaciones de temperatura, flexión, impacto y choque. Limpiar con un paño suave y agua tibia.

Cover is tailored to protect seat and deco cushions only.

EN ATTENTION
The NESTREST is shipped with pre-mounted handles. Hanging and standing lounge do not fit through standard doors! Weight capacity: 350 kg / 770 lbs.

EN NESTREST LIABILITY
DEDON Inc. disclaims responsibility for misuse, inadequate installation, or injuries resulting from improper use, and won't be liable for damages caused by the product.

ES MATERIAL
Fabricado con fibra DEDON tejida a mano sobre una estructura de aluminio con recubrimiento de pintura en polvo. Limpiar con un paño suave y agua tibia.

ES *FUNDAS
La funda está hecha a medida para proteger sólo los cojines del asiento y del deco.

ES IMPORTANTE
El NESTREST se entrega con manillas premontadas. Los Hanging y Standing Loungers no pasan por las puertas de tamaño estándar. Capacidad de carga: 350 kg / 770 lbs.

ES RESPONSABILIDAD DE NESTREST
Responsabilidad: DEDON Inc. se desliga de la responsabilidad por el uso indebido, instalación inadecuada o lesiones resultantes de un uso incorrecto, y no será responsable de los daños causados por el producto.

 **EN** The loveseat / loveseat XXL is shipped with pre-mounted pullout casters.

EN MATERIAL

Made of DEDON Fiber woven over a powder-coated aluminum frame. The seat is made of tensiline® fabric. Clean with a soft cloth and warm water. The canopy can be washed with lukewarm water and mild cleaning agents. Use a sponge or a soft brush to wipe the material. The canopy may not be machine washed, as this could affect the impregnation, thus making the material more susceptible to dirt. Ensure the canopy is completely dry before folding it to avoid permanent stains.

EN 15 % upcharge for vented canopy.

EN The optional ORBIT Canopy Vents allow air to flow through the canopy and take stress off the hinges. Vents are recommended in windy environments. When not in use, the canopy should be stored in the down position and tied.

 **ES** El sofá isla / El sofá isla XXL se entrega con ruedas premontadas plegables.

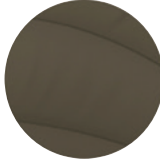

ES MATERIAL

Fabricado con fibra DEDON tejida a mano sobre una estructura de aluminio con recubrimiento de pintura en polvo. Marco de aluminio con recubrimiento de polvo. El asiento es de tejido Tensiline®. Limpiar con un paño suave y agua tibia. La capota ORBIT también se puede limpiar con agua tibia y un detergente suave. Se recomienda utilizar una esponja o un cepillo suave para limpiarla. Al hacerlo, asegúrese de que la capota esté completamente extendida. Para conservar la impermeabilización del material, nunca la lave en una lavadora. Asegúrese de que la capota esté completamente seca antes de plegarla para evitar manchas permanentes.

ES 15% de cargo adicional para una capota ventilada.

ES Las rejillas de ventilación ORBIT opcionales permiten el flujo de aire a través del dosel, y reducen la tensión en las bisagras. Se recomienda su uso en entornos ventosos. Cuando el dosel no esté en uso, debe mantenerse en la posición baja y atado.

EN MATERIAL

The Dry+ Cushion sets of the PAROS collection are equipped with Dry+ functionality. This does not apply to the side cushions.

Made of DEDON Fiber woven over a powder-coated aluminum frame. The feet are made of stainless steel, available either polished or powder-coated. Clean with a soft cloth and warm water. Never use steel wool to clean the stainless steel, as it will contaminate the stainless steel, causing rust.

ES MATERIAL

El set de cojines Dry+ de la colección PAROS está equipado con propiedades Dry+. Esto no se aplica a los cojines laterales.

Fabricado con fibra DEDON tejida a mano sobre una estructura de aluminio con recubrimiento de pintura en polvo. Limpiar con un paño suave y agua tibia. Los pies están hechos de acero inoxidable, disponible en versión pulida o con recubrimiento en polvo. Las bases pueden limpiarse regularmente con agua limpia. Nunca utilice lana de acero para limpiar el acero inoxidable.

EN MATERIAL

The woven base consists of a mix of DEDON Fiber and marine rope, interlaced through a powder-coated aluminum structure. The tabletops are made of Monolite Ipergres®, a frost-proof ceramic material that is non-absorbing and highly resistant to indirect tensile stress, impacts, scratches and abrasion.

Ceramic tabletops are made in traditional handwork. This may cause variations that make each piece truly unique. Do not cover in the winter months and ensure sufficient air circulation. Clean with a soft cloth and warm water.

HPL is a material that is characterized by high impact resistance and extreme resistance to mechanical impact, moisture and steam. DEDON HPL tabletops are made of paper layers impregnated with resin. Consequently, it is a natural product, where certain color deviations may occur due to the production process.

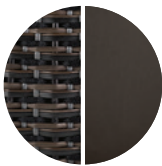

ES MATERIAL

Las bases están formadas por una mezcla de fibra DEDON y cuerdas, tejidas en una malla de aluminio con recubrimiento de polvo. Los tableros de cerámica son de Monolite Ipergres®, un material cerámico resistente a las heladas e hidrófugo con una excelente resistencia a los arañazos y la abrasión.

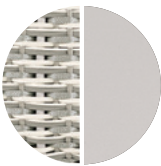

Los tableros de cerámica se fabrican artesanalmente. Esto puede provocar variaciones que hacen que cada pieza sea realmente única. No cubrir en los meses de invierno y asegurar una circulación de aire suficiente. Limpiar con un paño suave y agua tibia.

El HPL es un material que se caracteriza por su alta resistencia al impacto y una resistencia extrema a impactos mecánicos, humedad y vapor. Las superficies de mesa de HPL de DEDON están hechas de capas de papel impregnadas con resina. Por lo tanto, es un producto natural en el que pueden presentarse ciertas variaciones de color debido al proceso de producción.

EN MATERIAL

Made of DEDON EcoCycle Fiber woven over a powder-coated aluminum frame. Clean with a soft cloth and warm water. Clean the teak with DEDON Fiber, Teak & Upholstery Cleaner. To preserve its original golden-brown color, apply DEDON Teak Color Protector at least every six months.

EN USE

The backrests of the left and right modules as well as left and right modules XL can be flipped and used on the opposite sides.

ES MATERIAL

Fabricado con fibra DEDON EcoCycle tejida a mano sobre una estructura de aluminio con recubrimiento de pintura en polvo. Limpiar con un paño suave y agua tibia. Limpie la teca con el Limpiador de fibra, madera de teca y telas. Para conservar su color original marrón dorado, aplique el Protector de Color para Teca DEDON al menos cada seis meses.

ES USO

Los respaldos de los módulos izquierdo y derecho así como de los módulos izquierdo y derecho XL pueden voltearse y utilizarse en los lados opuestos.

EN MATERIAL Chairs

The structure of the SEAX armchair, lounge chair and footstool is made of powder-coated die-cast aluminum. The seat and back textile is a mix of PVC, acrylic and polyester. The armrest covers are made out of teak-finished plywood. Clean the frame, seat and backrest with a soft cloth and warm water. Clean the plywood armrest covers with DEDON Fiber, Teak & Upholstery Cleaner. To preserve its original golden-brown color, apply DEDON Teak Color Protector at least every six months.

ES MATERIAL Sillas

Las estructuras del sillón y el taburete SEAX son de aluminio fundido a presión con recubrimiento de polvo. El asiento y el respaldo están fabricados con un tejido de PVC, acrílico y poliéster. El acabado de la madera de los reposabrazos es de madera laminada recubierta de teca. Limpie la estructura, el asiento y el respaldo con un paño suave y agua tibia. Limpie los reposabrazos de madera laminada con el Limpiador de fibra, madera de teca y telas. Para conservar su color original marrón dorado, aplique el Protector de Color para Teca DEDON al menos cada seis meses.

Ref. BHA

EN MATERIAL Tables

The base consists of powder-coated aluminum profiles with powder-coated, die-cast aluminum legs. The ceramic tabletops are made of porcelain stoneware, a high-performance ceramic produced by sintering mineral powders without resins. They are highly resistant to water, frost, UV exposure, and abrasion, making them ideal for outdoor use. Clean with a soft cloth and warm water. Teak tabletops consist of premium teak. The sealant used between the teak slats are the same as those widely used on yacht decks and are designed to expand and contract with teak's natural movement. Clean the teak with DEDON Fiber, Teak & Upholstery Cleaner. To preserve its original golden-brown color, apply DEDON Teak Color Protector at least every six months.

ES MATERIAL Mesas

El soporte está formado por perfiles de aluminio con recubrimiento de polvo y patas de aluminio fundido a presión con recubrimiento de polvo. Los tableros cerámicos están hechos de gres porcelánico, una cerámica de alto rendimiento producida mediante la sinterización de polvos minerales sin resinas. Son altamente resistentes al agua, a las heladas, a la exposición a los rayos UV y a la abrasión, lo que las hace ideales para uso en exteriores. Limpiar con un paño suave y agua tibia. El tablero de la mesa es de madera de teca de alta calidad. El sellado de las juntas entre las laminas de teca permite que la madera se expanda o contraiga como parte de su movimiento natural. Limpie la madera de teca con el limpiador de fibra, teca y tapicerías DEDON. Si desea conservar el color marrón dorado original, aplique el protector de color para teca DEDON al menos cada seis meses.

TETHERING ROPE OPTION FOR SWINGUS 2-SEATER Opciones de cuerda de sujeción para el columpio de 2 plazas SwingUs

Ref. BH4

0.18 kg • 0.4 lbs

EN MATERIAL

Example of tethering rope option available for SWINGREST hanging lounger, SwingMe lounge chair and SwingUs 2-seater. Shown is a one point rope with swivel.

ES MATERIAL

Ejemplo de como atar la cuerda opcional disponible para colgar tumbonas: SWINGREST hanging lounger, SwingMe Columpio individual, SwingUs Columpio 2 plazas.

EN MATERIAL

Made of DEDON Fiber woven over a powder-coated aluminum frame. The tabletop for the hanging / standing lounge in chalk consists of Corian. The tabletop in black pepper consists of aluminum. Clean with a soft cloth and warm water.

EN CANOPY

The SWINGREST canopy is made of 90% polyester and 10% linen fabric. The fabric is dirt and water repellent.

EN HANGINGS

The rope length can be individually customized to customer requirements upon request. The SWINGME lounge chair and the SWINGUS 2-seater can be attached to either one or two suspension points. The canopy for the SWINGUS 2-seater and hanging lounge can only be attached if the piece of furniture has been mounted on a single suspension point.

Please see your DEDON Sales Representative for questions regarding hanging environments.

ES MATERIAL

Fabricado con fibra DEDON tejida a mano sobre una estructura de aluminio con recubrimiento de pintura en polvo. La mesa de la tumbona colgante/de pie en color chalk está hecha de Corian. La mesa en color black pepper está hecha de aluminio. Para limpiar las superficies, use un paño o cepillo suave, agua tibia y un limpiador suave si es necesario.

ES VELO

El velo SWINGREST está fabricado con un 90% de poliéster y un 10% de lino. El tejido repele la suciedad y el agua.

ES SUSPENSIÓN

La longitud de la cuerda se puede personalizar individualmente según los requisitos del cliente, previa solicitud. El sillón bajo SwingMe y el sofá de dos plazas SwingUs pueden colgarse en un solo punto para obtener un movimiento rotatorio o en dos puntos para conseguir un movimiento de balanceo. El baldaquín para el sofá de dos plazas SwingUs y hanging lounge solo se puede fijar si este está colgado de un solo punto.

Por favor, consulte a su representante de ventas de DEDON para preguntas sobre entornos colgantes.

EN MATERIAL

TIBBO frames and tables are made of premium teak. Clean the teak with DEDON Fiber, Teak & Upholstery Cleaner. To preserve its original golden-brown color, apply DEDON Teak Color Protector at least every six months. The seats of the armchairs, lounge chairs, sofas and footstool consist of woven DEDON Fiber. Clean with a soft cloth and warm water.

* TIBBO with contrast welt, as depicted, is available with a 20% upcharge on CAT B pricing.

ES MATERIAL

Los marcos y mesas de la colección TIBBO están hechos de teca de alta calidad. Limpie la teca con el Limpiador de fibra, madera de teca y telas. Para conservar su color original marrón dorado, aplique el Protector de Color para Teca DEDON al menos cada seis meses.

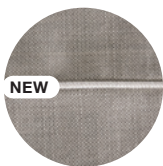

* El modelo TIBBO con ribete en contraste, tal como se muestra, está disponible con un recargo del 20% sobre el precio de la Categoría B.

chalk 30A

EN MATERIAL Ceramic

Made of Monolite Ipergres®: Frost proof, non-absorbing ceramic material with excellent resistance to scratches, abrasion and indirect tensile stress. Due to method of production, the side table does not have an entirely level surface. Ceramic tabletops are handmade. This may cause variations that make each piece truly unique. Clean with a soft cloth and warm water. Do not cover during the winter months and ensure adequate air circulation.

EN MATERIAL PE

Made of rotomolded polyethylene (PE). Clean with a soft cloth and warm water.

EN MATERIAL Planter

The BABYLON Planter is a dual-walled planter the volume of which can vary depending on the size of the plant. Made of rotomoulded polyethylene (PE): 100% approved for outdoor use, easy to maintain, 100% recyclable, light yet robust at the same time. Clean with a soft cloth and warm water.

ES MATERIAL Cerámico

Fabricado con Monolite Ipergres®: un material cerámico resistente a las heladas e hidrófugo con una excelente resistencia a los arañazos y a la abrasión. Debido al método de producción, la mesa auxiliar no tiene superficie totalmente plana. Los tableros de las mesas de cerámica están hechos a mano. Esto puede causar variaciones que hacen que cada pieza realmente única.

ES MATERIAL PE

Fabricado con polietileno (PE) moldeado por rotación. Limpiar con un paño suave y agua tibia.

ES MATERIAL Planter

El BABYLON Planter es una maceta de doble pared cuyo volumen puede variar en función del tamaño de la planta. Fabricado con polietileno (PE) moldeado por rotación 100 % para uso en exterior, fácil de mantener, a la vez que ligero, resistente y 100% reciclable. Para limpiar la superficie, utilice un paño suave, agua tibia y, si es necesario, un detergente suave.

EN MATERIAL

Made of DEDON Fiber woven over a powder-coated aluminum frame. Clean with a soft cloth and warm water. The removable inner planter consists of rotomolded polyethylene. The removable candle holder consists of a metal candle plate and a plastic tube. For the small DALA lantern (height 32 cm / 12½"), use only a block candle with a maximum height of 8 cm / 4½" and a maximum diameter of 11 cm / 3¼". For the medium and large DALA lanterns (heights 47 cm / 18½" and 62 cm / 24½"), use only a block candle with a maximum height of 22 cm / 8¾" and a maximum diameter of 17 cm / 6¾".

EN MATERIAL

OMBII is made of polyethylene produced by rotational casting. Clean with a soft cloth and warm water. The product must not be submerged in water.

ES MATERIAL

OMBII está hecho de polietileno producido por moldeo rotacional. Limpiar con un paño suave y agua tibia. El producto no debe sumergirse en agua.

EN *The OMBII LED luminaire is compatible with the DALA Lantern M & L.

ES *El luminario LED OMBII es compatible con la linterna DALA M y L.

ES MATERIAL

Fabricado con fibra DEDON tejida a mano sobre una estructura de aluminio con recubrimiento de pintura en polvo. Limpiar con un paño suave y agua tibia. El recipiente interior extraíble está fabricado con polietileno moldeado por rotación. El portavelas extraíble está formado por un portavelas metálico y un protector de plástico. Las velas no deben exceder una altura de 11 cm / 4½" y un diámetro de 8 cm / 3¼" en el farol DALA pequeño (altura 32 cm / 12½"). Las velas de los faroles DALA de tamaño medio y grande (altura 47 cm / 18½" y 62 cm / 24½") no deben ser más altas que 22 cm / 8¾" y no pueden tener un diámetro superior a 17 cm / 6¾". Por favor, utilice solamente velas en bloque.

CUSHIONS TRUNK XL
Baúl para cojines XL

Ref. APF

66.5 kg • 146.61 lbs

width	depth	height	interior
63"	35½"	43¼"	59¾" W × 32¼" D × 34¼" H
160 cm	90 cm	110 cm	152 W × 82 D × 87 H cm

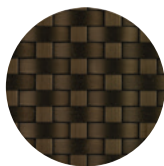

EN FUNCTION
Opening and closing of the lid is assisted by pneumatic springs. This trunk is designed for short-term storage of DEDON cushions and pillows. Ensure the cushions are completely dry before storing them in the trunk. The trunk can be used in covered outdoor areas as well as indoors.

EN MATERIAL
LA MALLE features pneumatic springs for the lid, easy-rolling wheels, breathable Tensiline® fabric for the interior and specially designed ventilation to keep it moisture-free. Made of DEDON Fiber woven over a powder-coated aluminum frame. Clean with a soft cloth and warm water.

ES USO
La tapa de este baúl XL de LA MALLE cuenta con muelles neumáticos que facilitan su apertura y cierre. Este baúl está diseñado para almacenar cojines y acolchados DEDON durante períodos breves de tiempo. Asegúrese de que los cojines estén completamente secos antes de guardarlos en el baúl. Puede utilizar el baúl tanto en exteriores techados como en interiores.

ES MATERIAL
El baúl XL de LA MALLE está equipado con una tapa con muelles neumáticos, ruedas de fácil desplazamiento, forro de Tensiline transpirable y ventilación especialmente diseñada para mantener el interior libre de humedad. La estructura del baúl está tejida con fibra DEDON . Limpiar con un paño suave y agua tibia.

Lámpara de pie S

Ref. APM

3.2 kg • 7.05 lbs
120 V

diameter	height
16½"	27¾"
42 cm	70.5 cm

EN FUNCTION

This lighting object is a decorative element for outdoor and indoor use and features a warm white correlated color temperature (2700 Kelvin). LED-Module: The LED-module has an ingress protection marking by IP64, which means it is dustproof, splashproof and therefore fully suitable for outdoor use. Energy efficiency EEC A+. The luminaries contain built-in LED lamps that cannot be replaced. Available with a 230V standard plug (Europe) or 120V standard plug (USA). Charging is only possible via the supplied power adapter. Brightness: max. 200 lumens.

EN MATERIAL

LOON consists of rotomolded polyethylene and a premium teak base. Clean with a soft cloth and warm water. Clean the teak with DEDON Fiber, Teak & Upholstery Cleaner. To preserve its original gold-en-brown color, apply DEDON Teak Color Protector at least every six months.

EN FUNCTION

This luminare is a decorative object for indoor and outdoor use. The light can be adjusted in both color, temperature (2700 - 6000 Kelvin) and intensity (up to 200 lumens) in four stages. The duration of the light depends on the light intensity and ranges from 8 to 24 hours. The luminare has IP54 protection class and is protected against splashing water and dust ingress, making it perfectly suitable for outdoor use. The luminare contains a built-in LED module that cannot be replaced. The luminare comes standard with a USB-C cable. An inductive charging station is optional and available separately. The charging time via USB-C cable is approximately 4 hours, and with the inductive charging station, it is approximately 6 hours.

EN MATERIAL

OMBII is made of polyethylene produced by rotational casting. Clean with a soft cloth and warm water. The product must not be submerged in water.

EN DEDON Design Studio

DEDON Design Studio operates at the intersection of three areas of DEDON expertise - innovation, creation and craftsmanship. As an in-house innovation lab, DEDON Design Studio explores emerging trends and the latest materials and production processes. The studio also guides the development of new DEDON products and fibers, supports projects by independent designers, and continually engages with and expands DEDON's worldwide network of artisans.

ES FUNCIÓN

Esta luminaria es un objeto decorativo para uso en interiores y exteriores. La luz se puede ajustar tanto en temperatura de color (2700 - 6000 Kelvin) como en intensidad (hasta 200 lúmenes) en cuatro etapas. La duración de la luz depende de la intensidad luminica y varía de 8 a 24 horas. La luminaria tiene clase de protección IP54 y está protegida contra salpicaduras de agua y entrada de polvo, lo que la hace perfectamente adecuada para uso en exteriores. La luminaria contiene un módulo LED incorporado que no se puede reemplazar. La luminaria se suministra de serie con un cable USB-C. Una estación de carga por inducción es opcional y está disponible por separado. El tiempo de carga mediante cable USB-C es de aproximadamente 4 horas, y con la estación de carga por inducción, es de aproximadamente 6 horas.

ES MATERIAL

OMBII está hecho de polietileno producido por moldeo rotacional. Limpiar con un paño suave y agua tibia. El producto no debe sumergirse en agua.

ES DEDON Design Studio

El Estudio de Diseño de DEDON opera en la intersección de tres áreas de experiencia de DEDON: innovación, creación y artesanía. Como laboratorio de innovación interno, el Estudio de Diseño de DEDON explora las tendencias emergentes y los últimos materiales y procesos de producción. El estudio también guía el desarrollo de nuevos productos y fibras DEDON, apoya proyectos de diseñadores independientes y se compromete y amplía continuamente la red mundial de artesanos de DEDON.

CUSHIONS & FABRICS

EN CUSHIONS YOU CAN LEAVE OUTDOORS

Each cushion is made to order in our U.S. warehouse in the High Point region, an area renowned for its rich tradition in fabrics. DEDON relies on some of the world's most advanced textile technologies to create cushions you can leave outside. Our high-quality materials are UV-resistant and specially treated to be splash resistant, all with no loss of comfort. The foam cores, created exclusively for DEDON, and synthetic fiber padding are surrounded by a water-repellent, breathable, spun-bonded wrap. After a rain shower, allow your cushions to dry to protect them from mold stains. We recommend storing your cushions for the winter or when not in use for long periods and using DEDON covers to keep them at their best. Before storing, make sure the cushions are completely dry. Our materials meet the highest standards of quality for outdoor usage. All fabrics are easy to maintain.

DEDON FABRICS

The new DEDON fabric collection has been carefully curated to offer luxury and performance. All fabric collections are dirt and water repellent and have been specially designed to withstand the elements. They simultaneously provide beauty and durability for outdoor furniture and decorative cushions. DEDON fabrics are distinguished by their exceptionally high color fastness, ensuring that colors remain vibrant and unchanged over an extended period. Made from 100% solution-dyed acrylic and free from PFAS (Per- and Polyfluoroalkyl substances), they are also fully washable. These qualities make them ideal for luxurious residential and hospitality projects. Experience the unparalleled elegance and durability of DEDON fabrics, which seamlessly complement our furniture to create a vibrant, unique, and high-quality ambiance. With this exceptional blend, you can create unique outdoor spaces that exude sophistication and resilience.

ES COJINES QUE PUEDES DEJAR EN EL EXTERIOR

Cada cojín se fabrica por encargo en nuestro almacén en la región de High Point, una zona reconocida por su rica tradición textil. DEDON recurre a algunas de las tecnologías textiles más avanzadas del mundo para crear cojines que pueden permanecer en el exterior. Nuestros materiales de alta calidad son resistentes a los rayos UV y han sido especialmente tratados para repeler salpicaduras, todo ello sin pérdida de confort. Los núcleos de espuma, creados exclusivamente para DEDON, y el relleno de fibra sintética están rodeados por una envoltura transpirable y repelente al agua. Tras una lluvia, deje que los cojines se sequen para protegerlos de manchas de moho.

Recomendamos guardar los cojines durante el invierno o cuando no se utilicen por períodos prolongados, y emplear fundas DEDON para mantenerlos en las mejores condiciones. Antes de almacenarlos, asegúrese de que los cojines estén completamente secos. Nuestros materiales cumplen con los más altos estándares de calidad para uso en exteriores. Todas las telas son fáciles de mantener.

DEDON TELAS

La nueva colección de telas DEDON ha sido cuidadosamente seleccionada para ofrecer lujo y rendimiento. Las ocho colecciones de telas son repelentes al agua y a la suciedad, y han sido diseñadas especialmente para resistir estos elementos. Al mismo tiempo, proporcionan belleza y durabilidad para muebles de exterior y cojines decorativos. Las telas DEDON se distinguen por su alta solidez del color, asegurando que los colores permanezcan vibrantes e inalterados durante un período prolongado. Fabricadas con acrílico 100% teñido en solución, libres de sustancias PFAS (sustancias per- y polifluoroalquiladas) y completamente lavables. Estas cualidades las hacen ideales para proyectos residenciales y de hospitalidad de lujo. Experimente la elegancia y durabilidad incomparables de las telas DEDON, que complementan perfectamente nuestros muebles para crear un ambiente vibrante, único y de alta calidad. Con esta mezcla excepcional, puede crear espacios exteriores únicos que irradian sofisticación y resiliencia.

fabric portfolio:

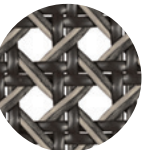

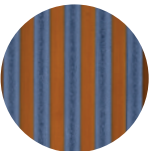

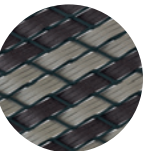

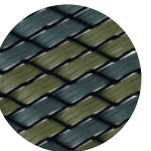

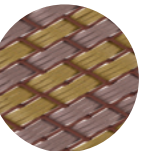

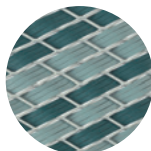

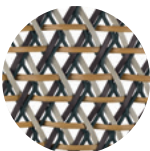

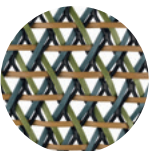

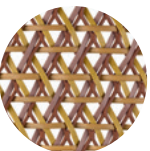

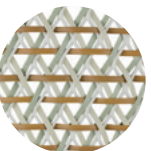

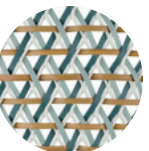

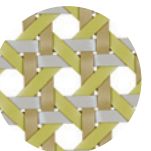

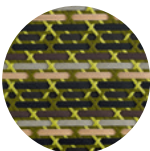

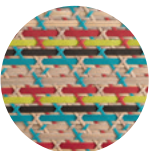

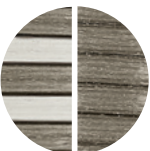

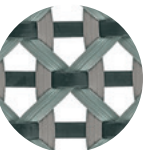

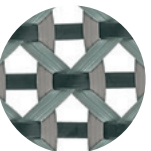

FIBER OVERVIEW

EN Researched, developed, manufactured and quality-tested at our production facilities in Northern Germany, DEDON Fiber (HDPE) is unrivaled for its durability, weather-fastness and luxuriousness of color, texture and touch. Strong enough to withstand the harshest conditions, yet supple enough to be woven into artful patterns by our master weavers, it has revolutionized outdoor furniture.

Because DEDON produces its fiber entirely in-house, we are able to work with our world-renowned designers to develop unique colors, textures and profiles. Our specialists monitor every new fiber we create, checking for resistance to UV-rays, salt water, pool water and extreme temperatures. The final product is non-toxic, non-polluting and fully recyclable. It is maintenance-free, easy to clean and recommended for indoor and outdoor use.

ES Investigada, desarrollada, fabricada y sometida a pruebas de calidad en nuestras instalaciones de producción en el norte de Alemania, la fibra DEDON (HDPE) es inigualable por su durabilidad, resistencia a las inclemencias del tiempo y lujo en color, textura y tacto. Lo suficientemente resistente para soportar las condiciones más severas y, al mismo tiempo, lo suficientemente flexible para ser tejida en patrones artísticos por nuestros maestros tejedores, ha revolucionado el mobiliario de exterior.

Al producir toda nuestra fibra internamente, podemos trabajar con nuestros diseñadores de renombre mundial para desarrollar colores, texturas y perfiles únicos. Nuestros especialistas monitorean cada nueva fibra que creamos, verificando su resistencia a los rayos UV, al agua salada, al agua de piscina y a temperaturas extremas. El producto final es no tóxico, no contaminante y completamente reciclable. Es de bajo mantenimiento, fácil de limpiar y recomendado tanto para uso en interiores como exteriores.

POWDER COATING OVERVIEW

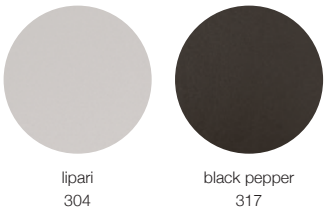

EN DEDON's powder-coated finishes provide a smooth, durable surface designed to protect against sun exposure and everyday wear while maintaining a refined, matte appearance. Each color is thoughtfully developed to complement the woven fibers within each collection. The palette is designed for continuity, allowing frames from different collections to sit together with ease. The result is a cohesive, elevated look with lasting performance.

ES Los acabados con recubrimiento en polvo de DEDON ofrecen una superficie lisa y duradera, diseñada para proteger contra la exposición al sol y el desgaste diario, manteniendo una apariencia mate y refinada. Cada color se desarrolla cuidadosamente para complementar las fibras tejidas dentro de cada colección. La paleta está diseñada para garantizar continuidad, permitiendo que las estructuras de distintas colecciones convivan. El resultado es una estética coherente y elevada con un rendimiento duradero.

TABLETOP OVERVIEW

EN THE FINISHING TOUCHES FOR YOUR TABLE

From glass to teak, aluminum to HPL, DEDON offers an extensive selection of tabletop materials. These innovative options not only complement the design concepts of our various collections but also adhere to the top-quality standards that DEDON demands for all its outdoor furniture.

Note: Do not cover ceramic tabletops during winter months; ensure sufficient air circulation. Dark tabletops may become very hot in direct sunlight and can cause minor burns.

The ceramic tabletops are made of porcelain stoneware, a high performance ceramic produced by sintering mineral powders without resins. They are highly resistant to water, frost, UV exposure, and abrasion, making them ideal for outdoor use. Clean with a soft cloth and warm water.

ES

Los tableros de cerámica están hechos de gres porcelánico, una cerámica de alto rendimiento producida mediante la sinterización de polvos minerales sin resinas. Son altamente resistentes al agua, las heladas, la exposición a los rayos UV y la abrasión, lo que los hace ideales para exteriores. Se limpian con un paño suave y agua tibia.

272 TABLETOP OVERVIEW

TEAK

EN THE BEAUTY OF TEAK

Teak is one of the world's most valuable timber resources. Furniture crafted from premium teak, sourced from sustainable farms, is naturally rich in protective tannins and engineered to perform in demanding outdoor environments over an exceptionally long lifetime. Highly resistant to rain, intense sunlight, freezing conditions, and fluctuating temperatures, teak is particularly well-suited for both residential and hospitality applications.

Each teak plank is hand-sanded, shaped, and precisely joined to preserve the wood's natural character while achieving refined finishes and seamless joinery. Teak's durability and performance do not rely on complex maintenance routines or additional surface treatments. When left to weather naturally, the wood ages gracefully, developing its characteristic silver-gray finish as surface pigments fade over time.

For projects where added protection is preferred, a teak and upholstery protector may be applied to weathered surfaces to help repel moisture and reduce the likelihood of staining from food and beverages.

This optional treatment supports ease of maintenance while allowing the teak to continue aging naturally. In some cases, light sanding may be used to smooth the surface and remove raised grain caused by exposure to the elements.

Allow your teak furniture with cushions to dry before using covers. Cushions that are in contact with new teak can occasionally show signs of teak staining. This is caused when the natural pigments and oils within the new teak bleed out over time, leaving a red-brown stain on the cushion fabric. To remove the teak stains, wash the cushion covers at a lukewarm temperature (30°C / 86°F) with mild soap. Teak bleeding may also leave stains on the ground around the furniture. Any damage caused by teak bleeding is not covered by the DEDON warranty.

NATURAL-FINISH
TEAK

WEATHERED
TEAK

ES LA BELLEZA DE LA TECA

La teca es uno de los recursos madereros más valiosos del mundo. El mobiliario fabricado con teca premium, procedente de plantaciones sostenibles, es naturalmente rica en taninos protectores y está diseñada para ofrecer un rendimiento excepcional en entornos exteriores exigentes durante una vida útil extraordinariamente prolongada. Altamente resistente a la lluvia, la radiación solar intensa, las heladas y las variaciones de temperatura, la teca es especialmente adecuada tanto para aplicaciones residenciales como para proyectos de hospitalidad.

Cada tablón de teca se lija a mano, se moldea y se ensambla con precisión para conservar el carácter natural de la madera, logrando al mismo tiempo acabados refinados y uniones impecables. La durabilidad y el rendimiento de la teca no dependen de rutinas de mantenimiento complejas ni de tratamientos superficiales adicionales. Cuando se deja envejecer de forma natural, la madera evoluciona con elegancia, desarrollando su característico tono gris plateado a medida que los pigmentos de la superficie se atenúan con el tiempo.

En proyectos donde se desea una protección adicional, puede aplicarse un protector para teca y tapicería sobre superficies ya envejecidas para ayudar a repeler la humedad y reducir la probabilidad de manchas causadas por alimentos y bebidas. Este tratamiento opcional facilita el mantenimiento sin interferir en el proceso natural de envejecimiento de la teca. En algunos casos, puede realizarse un lijado ligero para suavizar la superficie y eliminar la fibra levantada provocada por la exposición a los elementos.

Antes de utilizar fundas protectoras, permita que el mobiliario de teca con cojines se seque completamente. Los cojines que están en contacto con teca nueva pueden, en ocasiones, presentar manchas de teca. Esto ocurre cuando los pigmentos y aceites naturales de la teca nueva migran con el tiempo, dejando una mancha de tono marrón rojizo en el tejido del cojín. Para eliminar estas manchas, lave las fundas de los cojines a una temperatura templada (30 °C / 86 °F) con un jabón suave. El sangrado de la teca también puede provocar manchas en el suelo alrededor del mobiliario. Los daños causados por el sangrado de la teca no están cubiertos por la garantía de DEDON.

PROTECTIVE COVERS

EN DEDON PROTECTIVE COVERS – HANDLING AND CARE

DEDON furniture covers are crafted from Weathermax®, a robust 100%-solution-dyed polyester fabric. This material is water-repellent, UV-resistant, and boasts excellent breathability and durability. Thanks to its superior breathability, DEDON covers effectively reduce moisture, heat buildup, and condensation, helping to prevent mold and mildew on your furniture.

Perfectly tailored for each product, DEDON covers feature convenient zippers for easy placement, along with elastic straps and loops designed for secure fastening in windy conditions. To clean, simply use a soft cloth and warm water, and if necessary, a gentle upholstery cleaner. Avoid bleach and ironing. Ensure both the furniture and cushions are completely dry before applying the covers, and take care to prevent water puddles from forming on the cover's surface.

For long-term storage, especially during winter, we recommend keeping your cushions in a dry indoor location.

ES FUNDAS DEDON: USO Y CUIDADO

Las fundas para muebles DEDON están confeccionadas con Weathermax®, un robusto tejido de poliéster 100% teñido en solución. Este material es repelente al agua, resistente a los rayos UV y cuenta con una excelente transpirabilidad y durabilidad. Gracias a su superior transpirabilidad, las fundas DEDON reducen efectivamente la humedad, la acumulación de calor y la condensación, ayudando a prevenir el moho y los hongos en tus muebles.

Diseñadas a medida para cada producto, las fundas DEDON cuentan con cremalleras convenientes para una colocación fácil, así como correas elásticas y lazos diseñados para un ajuste seguro en condiciones de viento. Para limpiar, simplemente utiliza un paño suave y agua tibia, y si es necesario, un limpiador suave para tapicería. Evita el uso de blanqueadores y la plancha. Asegúrate de que tanto los muebles como los cojines estén completamente secos antes de colocar las fundas, y ten cuidado de prevenir la formación de charcos de agua en la superficie de la funda.

Para el almacenamiento a largo plazo, especialmente durante el invierno, recomendamos mantener tus cojines en un lugar seco y cerrado.

CUSTOMIZATION

EN CUSTOMIZATION OPTIONS FOR PROFESSIONALS

DEDON manufactures its weather-proof fiber and award-winning furniture at its own production facilities in Northern Germany and the Philippines. This ensures the highest levels of craftsmanship, quality and innovation while enabling DEDON to develop customized solutions for architects and contract professionals:

- Choose the perfect color for DEDON Fiber, powder coating and other materials.
- Select from a variety of high-end outdoor fabrics or propose your own fabric.
- Take advantage of custom cushion manufacturing, exclusively for your order.

Contact your Sales Representative to discover DEDON's full range of customization options.

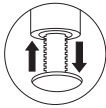

ES OPCIONES DE PERSONALIZACIÓN PARA SOCIOS CONTRACTUALES

DEDON produce su fibra resistente a la intemperie y sus premiados muebles de exterior en sus propias instalaciones de fabricación en el norte de Alemania y en Filipinas. De este modo, DEDON ofrece el más alto nivel de artesanía, calidad e innovación, siendo capaz de proporcionar soluciones individuales para arquitectos y profesionales del diseño de interiores:

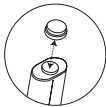

- Elija el color perfecto para la fibra DEDON, los recubrimientos de polvo y otros materiales.
- Elija entre una gran variedad de tejidos exclusivos DEDON para uso en exteriores o mande a procesar su propia tela.
- Aproveche la posibilidad de fabricar cojines a medida, exclusivamente para su pedido.

Póngase en contacto con su representante comercial de DEDON para obtener más información sobre todas las opciones de personalización.
